

## GyMEA-Miranda Uniting Church

# **COVID-19 Guidance from 27 February 2022**

In response to the latest advice from the NSW Government and Synod (Guidance note 47), we request that people attending church observe the following advice:

- Do not come to church activities, including worship, if you are unwell
- Get tested for COVID if you are unwell
- Notify a Church Council member if you have a positive COVID test (so we can inform others)
- Wear a mask if you prefer
- Keep 1.5m away from others while at church.
- Use hand sanitiser on entry to the church and regularly at other times

The Church Council:

- Will no longer keep records of attendance as that is not required by government
- Will notify the congregation if we become aware that someone who is COVID positive attended an event, including worship, at our church
- Will continue to have the windows and doors open to ensure good ventilation of the church and halls
- Will serve communion in a COVID-safe way
- Will continue to use an Offering bowl in the foyer and encourage electronic means of accepting offerings
- Will ensure the premises are cleaned appropriately
- Will ask members serving morning tea to do so in a COVID-safe way
- Will review this advice as circumstances change.
